

DESIGN A GLOBAL PATH *to* YOUR UNIVERSITY

With the world as their classroom, Verto students take experiential learning to the next level. Fostering personal growth, academic excellence, and global citizenship, Verto semesters help students arrive at partner campuses ready to make a big impact.

Verto's channel enrollment option offers students another way forward - an opportunity to demonstrate their academic potential, hone leadership skills, and grow exponentially on a Verto semester so that they're ready to attend your institution.

How Does It Work?

Partners offering channel enrollment give students the opportunity to start college with Verto Education, while keeping them in their admissions pipeline for the following Spring or Fall. The choice is yours!

As an example, here's what a student may receive from a partner offering channel enrollment:

Dear (Insert Name),

At this point, the Class of 2024 is filled and we have decided to close the waitlist. I know that you invested much time and energy in your application, and I am sorry that we were not able to ultimately offer you a place in the incoming class.

While we are unable to offer you a space in the entering class this fall, I did want to highlight two pathways to guaranteed admission for Spring 2021 that we've established for students on our waitlist. This includes either completing a semester of full-time academic work this fall at an accredited community or junior college, or completing an academic semester abroad through Verto Education. We hope these opportunities provide a clear path to follow for any student on our waitlist wishing to enroll at this institution.

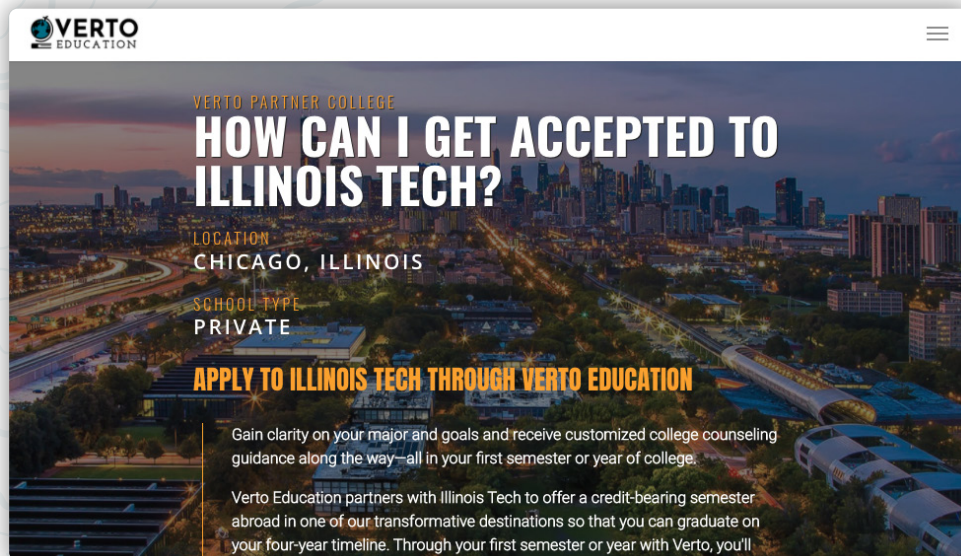

Wherever your next steps might lead you, all of us on the Admission Committee wish you success in your future endeavors.

*Sincerely,
Your Dream College or University!*

Next, we create a landing page for your channel enrollment students:

You'll be able to send students directly to this landing page to provide further details on our partnership and what they can expect. There are some additional benefits to you in keeping these students in your pipeline while they attend a Verto semester:

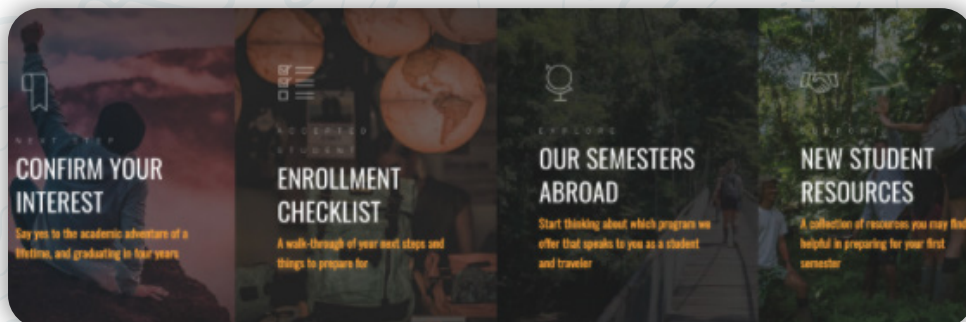

Students will be coded in our system as a channel enrollment student at your institution

We will provide updates as well as semester progress reports during their semester

Our personalized support ensures that students have a successful path to your campus

Simplified onboarding process for students, as we bypass introducing other partner colleges to them

Finally, personalize your channel enrollment process to best support your students:

Alongside us, you'll easily ensure your students understand the path ahead and know their options when building a four-year plan.

Develop a channel enrollment FAQ page (see this example) to help students select their best option

Verto Vols

By selecting to participate in Verto Vols through the [Road to Rocky Top program](#), students will have the opportunity to spend their first semester abroad with a UT community before returning and starting classes on UT's campus for the spring 2021 semester. This unique international academic and co-curricular experience is designed to ensure a seamless transition from the first semester abroad to the spring semester and beyond at UT.

- Travel to up to three different countries in one semester with the support and safety of the Verto team.
- Earn 16 credit hours while abroad

W&M expands options for waitlisted students, offering guaranteed pathways to spring admission

Guaranteed pathway Verto Education students attend an outdoor class in Momi Bay, Fiji. Students learn Fijian traditions and cultural nuance early on, helping them navigate their new environment. The orientation is hosted by program staff and in-country teams with expansive knowledge of both American and local customs. *Photo courtesy Verto Education*

Consider a press release to help more students find this unique path to your university

At Verto, providing more pathways to college is a core component of our mission. Our College Counseling and Partner Relations team would be happy to discuss this with you, so feel free to contact us at liz@vertoeducation.org
